Paul Dromgoole is well known nationally for his diabetes educational work and his sessions are consistently very highly evaluated by attendees.

All delegates will receive

- A set of lecture notes available for download for delegates' personal use
- A certificate for your appraisal portfolio

Course Accredited for 4 hours CPD

Meet the Speaker ...

Dr Kam Mann MBBS MRCP MRCGP

Kam was born and brought up in North London and studied medicine at The London Hospital Medical College graduating in 1985. He has postgraduate qualifications from the Royal College of Physicians and the Royal College of General Practitioners in London. He has a specialist interest in Andrology, Men's Health and Sexual Medicine and a particular expertise in managing men with testosterone deficiency and erectile dysfunction. He has a passion for providing a high quality, holistic, empathetic, client centred service.

He is a member of the British, European and International Societies of Sexual Medicine and regularly attends national and international conferences to stay abreast of the latest research in his areas of specialist interest. His NHS base is with the Andrology team at the University Hospital Southampton NHS Foundation Trust.

Mr Paul Dromgoole RGN, RNMH, MSc Diabetes, PG Cert Ed

Paul has over 18 years' experience in diabetes management in Primary Care and Secondary Care Settings in Brighton, Leicester and York and more recently worked as a half-time Lecturer Practitioner in Diabetes at the University of York teaching on diabetes programmes from Pre-Registration up to Masters Level and an External Examiner for the University of Ulster.

He has extensive experience of supporting General Practice in clinical decision making and best practice in diabetes management and his teaching sessions and workshops are consistently highly evaluated for their clinical content, delivery and application to 'real-life' clinical practice.

Paul now combines a 2 day a week role as Clinical Nurse Specialist - Diabetes, with freelance Lecturing work with a variety of organisations including GP Training companies.

His interests with diabetes are particularly around managing clinical risk, patient empowerment and guiding effective health behaviour change.

Your Learning Agendas ...

Diabetes in 2018: Challenges, Decisions and Actions

An interactive, case study focused workshop applying evidence to clinical decisions in diabetes management.

We are keen that the focus is on YOUR clinical dilemmas and that you leave this meeting with strategies that may help!

At the end of the session, delegates will have gained:

- A greater understanding of positioning of glucose lowering therapies within a ranges of patient 'profiles'
- A broader understanding of complication risk factor management in diabetes
- Awareness of the challenges and medico-legal issues around diabetes in those of childbearing age
- Further strategies to help convey messages of risk and benefit of intervention in Type 2 Diabetes
- An opportunity to discuss your diabetes related challenges and dilemmas and to take 'home' solutions!
