Meet the Speakers ...

Dr Yassir Javaid

Yassir underwent his medical school training in Cambridge, before embarking on GP training in Northampton, where he has been based ever since. He developed an interest in Cardiology and Echocardiography and was one of the clinical leads for the South Northants Community Cardiology Service, which had a focus on patients with Heart Failure.

More recently, he has become involved in a number of Cardiology up-skilling projects within Primary Care in the East Midlands, with the aim to improve the optimisation of patients. He has been the clinical lead for the CVD prevention project at the East Midlands Strategic Clinical Network since August 2013.

Dr Alastair Sandilands

I am a Consultant Cardiac Electrophysiologist at the Glenfield Hospital, enjoying my role for the past 6 years. I manage all forms of Arrhythmia, but especially enjoy looking after patients with Atrial Fibrillation, as each patient's management plan is individual. This involves addressing anticoagulation needs, to ablation of complex Atrial Fibrillation Substrates.

I enjoy teaching about AF, highlighting the many issues that medics now face in an area which is ever increasing.

Whilst not at work, I have a busy family life with three young boys, with road cycling as another passion.
