

Type 2 Diabetes – Pre-Insulin: Maximising use of non-insulin based therapies

WEBINAR

Saturday 7th September 2024

All Delegates will receive

- Increased knowledge in Diabetes
- A set of Course downloads
- A certificate for your appraisal portfolio

Suggested Accreditation
2 hrs CPD

Introducing your speaker

Mr Paul Dromgoole RGN, RNMH, MSc Diabetes, PGCE

Clinical Lecturer - Diabetes / Diabetes Specialist Nurse

Paul Dromgoole is well known nationally for his diabetes educational work and his sessions are consistently very highly evaluated by attendees.

Meet the Speaker ...

Mr Paul Dromgoole RGN, RNMH, MSc Diabetes, PGCE

Paul has over 20 years' experience in diabetes management in Primary Care and Secondary Care Settings in Brighton, Leicester and York, where he previously worked as a half-time Lecturer Practitioner in Diabetes at the University of York and an External Examiner for the University of Ulster.

He has extensive experience of supporting General Practice in clinical decision making and best practice in diabetes management and his teaching sessions and workshops are consistently highly evaluated for their clinical content, delivery and application to 'real-life' clinical practice.

Paul feels as passionate at being involved in diabetes as 20 years ago, with some excellent therapies, with strong evidence of protecting patients into the future: Importantly, if we can get them 'on board'.

Paul now combines a 2 day a week role as Clinical Nurse Specialist in Diabetes, with freelance Lecturing work throughout the UK.

Outside of work he is a keen Scuba Diver and PADI Dive Instructor and now proud owner of a classic 1947 BSA Motorcycle (any help with kick-starting would be welcome!)

Your Learning Agenda ...

Type 2 Diabetes – Pre-Insulin: Maximising use of non-insulin based therapies

- ▶ Exploring personalised approaches to combination glucose lowering therapies.
- ▶ Evidence and Guidance relating to this.
