### Meet the Speaker ...

This event is run in association with Primary Care Ophthalmology a training organisation, who provide high quality, practical, focused training to primary care GP's and Nurses, covering all you need to know to provide eye care in the community.  
[primarycareophthalmology.co.uk](http://primarycareophthalmology.co.uk)

### Dr Andrew Partner BM DRCOphth MRCGP

Andrew Partner is a GP Principal in Oxfordshire and practices Ophthalmology at the Oxford Eye Hospital.

Previously he was the RCGP Ophthalmology Curriculum Guardian and the RCGP representative to the UK Vision Strategy.

## Your Learning Agenda ...

### Background

"Eye problems account for 1.5% of GP consultations in the UK with a rate of 50 consultations per 1000 population per year" (RCGP Curriculum Statement 15.5). In primary healthcare, one has the opportunity to home in on preventable causes of blindness with only limited tools available. Key to GP, the history is often underestimated and can provide your diagnosis with the "opening gambit".

A formal measurement of visual acuity and competent use of the ophthalmoscope can reveal all the necessary signs to either manage the eye complaint or coordinate effective and appropriate care with other specialist eye services.

### Objectives

The workshop will expand upon the knowledge and skill of current GP eye care by providing a practical, thorough and time efficient approach to the eye patient that the GP can immediately put into practice.

## Programme ...

<b>9:30 - 10:15am</b>	<b>Chronic eye disease and the role of Primary Care</b>
<b>10:15 - 10:30am</b>	<b>Break and Promotional Presentation TBC</b>
<b>10:30 - 11:15am</b>	<b>Eye problems and assessment in children</b>
<b>11:15am</b>	<b>Webinar Ends</b>
