

Primary, Integrated and Tertiary Asthma Care plus The Burden of COPD from the Clinician and Patient Perspective

At this event:

- Listen to key and National Speakers
- Update understanding and knowledge of Primary, Integrated and Tertiary Asthma care
- Update knowledge and understanding of the burden of COPD from the Clinician and Patient perspective
- Receive a certificate for your appraisal portfolio

Saturday 14th March 2020

The Conference Centre at LACE
Croxteth Drive, Sefton Park,
Liverpool L17 1AA

Meet the Speakers...

Dr Hassan Burhan

Hassan Burhan is a Consultant at the Royal Liverpool University Hospital and leads the Liverpool Severe Asthma Service.

He is the NIHR CRN North West Coast Respiratory Co-Lead, serves as CI and Pi on numerous commercial and academic asthma studies and holds honorary contracts at the University of Liverpool and the Liverpool School of Tropical Medicine.

Dr Robert M Angus

Dr Angus was trained at Glasgow University and initially trained in general internal medicine and respiratory medicine in hospitals around Glasgow before completing his training in Liverpool. He held a British Lung Foundation Research Fellowship and in addition he has spent a period of attachment to academic intensive care units in London and Chicago.

He was appointed to Aintree Chest Centre, Aintree University Hospital, Liverpool, in January 1996. In addition to a general respiratory practice he was medical director of the hospital high dependency unit (HDU) which he helped constitute and establish. He has developed an outpatient non-invasive ventilation (NIV) service and an inpatient ventilation centre. He previously lead the severe asthma service at Aintree Chest Centre and has served as the UK secondary care assembly member for GINA the Global Initiative for Asthma.

He also developed in conjunction with the local community trust a home care scheme (ACTRITE) for COPD. Publishing the outcomes in the BMJ this is the forerunner of current intermediate services. He has contributed to the BTS intermediate care and hospital at home guidelines for COPD, and NICE guidelines for the management of MND, including NIV, working with the RCP (London) and NICE on this. Current research interests include exploring the impact of computer-guided consultations in asthma, COPD and sleep medicine together with Telehealth in the optimisation and remote monitoring of patients on ventilation in particular in MND.

Dr Angus is also interested in the post qualification training of professionals in the respiratory field. He was chairman of the Education Charity, Respiratory Education UK, which in the last 20 years this has developed a diploma, degree and masters courses in Respiratory Disease Management; this has now merged with Education for Health of which he is now co-chair.

Programme and Learning Agenda ...

- ▶ Over 18 million people in the UK are estimated to be treated for asthma at some stage in their lifetime
- ▶ An estimated 4.3 million adults (1 in 12) in the UK are currently receiving treatment for asthma
- ▶ Annual UK costs of asthma are estimated to be at least £1.1 billion
- ▶ Asthma accounts for an estimated 60,000 hospital admissions and 200,000 bed days a year.

References Mukherjee M et al. BMC Med 2016 | BLF Asthma statistics <https://www.statistics.blf.org.uk/Asthma>

- ▶ 1.2 million people in the UK are living with COPD
- ▶ 4.5% of people aged over 40 have COPD
- ▶ 115,000 people are diagnosed with COPD each year – one every 5 minutes
- ▶ 1.7% of hospital admissions are due to COPD – 144,000 per year and >1 million bed days
- ▶ Prevalence 2.5 times higher in most socially deprived quintile which is more extreme than lung cancer, low birth weight, industry and nutrition

Your Learning Agenda...

Part 1: Primary, Integrated and Tertiary Asthma Care

- ▶ The need for and Benefit of the NHSE Specialist commissioning for Severe asthma
- ▶ Differentiating Difficult from severe asthma needs on a Multi-Disciplinary Team
- ▶ Confirming the diagnosis when patients are on multiple asthma therapies can be difficult
- ▶ Expensive treatments work but patient selection and outcome measurement is key
- ▶ The role of integrated asthma care

This programme will be led by Dr Hassan Burhan

Part 2: The Burden of COPD from the Clinician and Patient Perspective.

- ▶ Where are we with smoking in COPD and what advice to give on vaping?
- ▶ The role of computer clinician support systems and the next generation computer guided consultation, in helping deliver guideline care.
- ▶ The latest pharmacological approaches to COPD
- ▶ The latest non-pharmacological approaches to COPD
- ▶ The role for non-invasive ventilation (NIV) in COPD

This programme will be led by Dr Robert Angus

Programme ...

09:00 – 09:30am	Registration and refreshments
09:30 – 11:00am	Part 1: Primary, Integrated and Tertiary Asthma Care
11:00 – 11:30am	Coffee break
11:30 – 1:00pm	Part 2: The Burden of COPD from the Clinician and Patient Perspective.
1:00pm	Conference close

In conjunction with MediConf, this meeting has been organised and fully funded by Chiesi. This meeting will contain promotional content.
