3 hours CPD**

Course delivered by Primary Care Ophthalmology
Course Providers of high quality, practical,
focused Ophthalmology training to primary care
GP's and Practice Nurses
www.primarycareophthalmology.co.uk

Meet the Speaker ...

This event is run in association with Primary Care Ophthalmology a training organisation, who provide high quality, practical, focused training to primary care GP's and Nurses, covering all you need to know to provide eye care in the community. primarycareophthalmology.co.uk

Dr Anup Shah BMBS DRCOG MRCOphth MRCGP PGCE (Health)

Anup Shah trained in Ophthalmology obtaining his Membership to the Royal College of Ophthalmologists in 2006.

He obtained his Membership to the Royal College of General Practitioners in 2010. He now works as a GP Principal in Hertfordshire and a GPSI in Ophthalmology with the Moorfields Eye Hospital. He is a Trainer in Primary Care with the East of England Deanery.

Mr Badrul Hussain

Badrul Hussain has been a Consultant Ophthalmic Surgeon at Moorfields Eye Hospital since August 2012 specialising in Cataract Surgery as well as Emergency and General Ophthalmology. Having qualified from Imperial College School of Medicine with a Distinction in Medicine and the Gordon Holmes Prize for Medicine, he started basic ophthalmic training in West Yorkshire completing this at St Thomas' Hospital in London.

Before starting higher training at the Western Eye Hospital and Moorfields Eye Hospital in London, he was a British Eye Research Foundation Clinical Research Fellow working with Professor John Marshall.

Prior to taking up his consultant position, he completed advanced surgical training with Fellowships in the Adnexal (Oculoplastic, Lacrimal and Orbital), Emergency and Cataract Services at Moorfields Eye Hospital.

He is currently the Deputy Director of the Cataract Service at Moorfields Eye Hospital as well as being the Trust's Clinical Coding Lead.

Your Learning Agenda ...

Background

"Eye problems account for 1.5% of GP consultations in the UK with a rate of 50 consultations per 1000 population per year" (RCGP Curriculum Statement 15.5). In primary healthcare, one has the opportunity to home in on preventable causes of blindness with only limited tools available. Key to GP, the history is often underestimated and can provide your diagnosis with the "opening gambit".

A formal measurement of visual acuity and competent use of the ophthalmoscope can reveal all the necessary signs to either manage the eye complaint or coordinate effective and appropriate care with other specialist eye services.

Objectives

The workshop will expand upon the knowledge and skill of current GP eye care by providing a practical, thorough and time efficient approach to the eye patient that the GP can immediately put into practice.

Programme ...

9.30-10.45am **How to approach the eye patient in General Practice**

10.45-11.15am **Break and Sponsored Symposium:**

Management of Dry Eye Symptoms in Primary Care

Mr Badrul Hussain

Consultant Ophthalmic Surgeon, A&E and Cataract Services

Training Director & Deputy Director, Cataract Service

Moorfields Eye Hospital NHS Foundation Trust

- ▶ Difference between lipid and aqueous deficient Dry Eye and treatments
- ▶ Diagnosis and treatment in primary care of MGD and Blepharitis
- ▶ When to refer into Secondary Care
- ▶ Available drops and just a mention on Evo Tears as a new treatment option

SCOPE This is a promotional symposia slot sponsored by Scope

11.15-12.30pm **A concise summary of eye problems in the young, middle aged and the elderly**

12.30 pm **Webinar Ends**
