### Meet the Speaker ...

**Mr Paul Dromgoole** RGN, RNMH, MSc Diabetes, PGCE

Paul has over 20 years' experience in diabetes management in Primary Care and Secondary Care Settings in Brighton, Leicester and York and more recently worked as a half-time Lecturer Practitioner in Diabetes at the University of York and an External Examiner for the University of Ulster.

He has extensive experience of supporting General Practice in clinical decision making and best practice in diabetes management and his teaching sessions and workshops are consistently highly evaluated for their clinical content, delivery and application to 'real-life' clinical practice.

Paul now combines a 2 day a week role as Clinical Nurse Specialist in Diabetes, with freelance Lecturing work throughout the UK.

Outside of work he is a keen Scuba Diver and PADI Dive Instructor and now proud owner of a classic 1947 BSA Motorcycle!

## Your Learning Agenda ...

### Diabetes in 2020: Understanding Evidence and Interventions through Case Scenarios

#### Aims:

To help delegates appropriately assess patient clinical case scenarios and formulate action plans and interventions, including treatment options and communication strategies to move diabetes patients towards appropriate clinical targets.

#### What you should gain from the session:

- ▶ A greater awareness of the risk profile of Type 2 Diabetes
- ▶ An understanding of latest guidelines on therapeutic positioning and pathways
- ▶ An update on mechanisms of action and pros and cons of individual treatments and their use in combination
- ▶ Potentially a greater awareness of appropriate target setting for a range of diabetes patients
- ▶ A range of risk/benefit communication strategies to support patient engagement.
- ▶ Awareness of and sign-posting to references and evidence sources to support your decision making.
