All Delegates will receive

- Increased knowledge in Dermatology
- A set of Course downloads
- A certificate for your appraisal portfolio

**Course Accredited for
2 hours CPD**

Introducing your speaker

Dr George Moncrieff
GPSI Dermatology

Meet the Speaker ...

Dr George Moncrieff

FRCP FRCGP DCH DRCOG DPD

Dr George Moncrieff was a GP principal in Bicester from 1985 until 2017, when he retired from his NHS practice. From 1999 he also ran an Interface Dermatology Service in the community, receiving direct referrals from around 50 GPs in North Oxfordshire.

After retiring from his NHS practice, he worked in a private practice in Oxford, as well as doing GP locums for local practices. Last year he helped to set up a Community Dermatology Clinic with the SDS MyHealthCare Federation in South Birmingham and was their Clinical Lead until January this year. He remains a Consultant to this Federation.

He was the RCGP Dermatology Curriculum Guardian from 2010 until 2014, Chair of The Dermatology Council for England from 2014 until July 2018 and a PCDS Committee Member from 2005 until 2018. He remains the Primary Care Advisor to the National Eczema Society.

In his spare time, He enjoys his 7 grandchildren, skiing, walking, playing tennis as well as reading, bridge and chess.

Your Learning Agenda ...

Management of Atopic Eczema in Primary Care

- ▶ Impact this disease has on patient's lives
- ▶ The definition and various ways in which atopic eczema presents to us and how that changes with age and skin colour (specific signs / patterns)
- ▶ The pathogenesis of Atopic Disease ('inside out' and 'outside in' interplay) and how 'skin barrier failure' in a genetically vulnerable individual leads to the 'atopic march'
- ▶ The incredibly sophisticated skin barrier and why this is so vulnerable to damage from our lifestyle choices
- ▶ The role of emollients in Atopic Disease(AD) - why they are so important
- ▶ How to choose an emollient and how to use an emollient
- ▶ The management of AD flares and why antibiotics / antiseptics are rarely needed or indeed desirable
- ▶ The link between food allergies and AD
- ▶ The role of topical steroids. The need to avoid oral antihistamines
- ▶ The role of vitamin D in AD
- ▶ The role of topical immune-modulators in Primary Care
- ▶ How to assess severity effectively in Primary Care and when to refer
- ▶ How our understanding of the abnormal immune pathways in AD is informing developments leading to remarkable advances in treatments
