**Course Accredited for
2 hours CPD**

Introducing your speaker

Dr Yasmin Husain MBChB, BSc, MRCGP

GP Birmingham

Named GP for Birmingham and Solihull
CCG Safeguarding team

Meet the Speaker ...

Dr Yasmin Husain

 MBChB, BSc, MRCGP

Yasmin has been practicing as a GP for 25 years.

She is currently working two sessions a week in a Practice in Birmingham.

She started her career in safeguarding in 2014 as a "Safeguarding Champion" for Birmingham Cross City CCG.

She became one of the Named GPs for Birmingham and Solihull CCG Safeguarding team in 2018 and does five sessions a week. As part of this role she has responsibility for the Learning and Development programme in Birmingham and Solihull and has therefore been very active in providing training for all Primary Care Staff- clinical and non- clinical.

She designs bespoke presentations depending on the audience and their safeguarding learning requirements. She is also a Clinical Educator for the IRISi Domestic abuse programme which is a collaboration between Primary Care and Women's Aid in England and a trainer for Prevent (radicalisation).

She understands the learning needs of Primary Care Staff through conducting Safeguarding reviews into adult and child deaths and cases of neglect.

Your Learning Agenda ...

Female Genital Mutilation in Primary Care

You may never have come across a victim of FGM before. However, with increasing social mobility, the chances are you will come across someone at some point in the future. Are you familiar with the mandatory reporting of FGM in under and over 18s? Even if you already work in an area with a high prevalence of FGM, this level 3 training will increase your knowledge and confidence in dealing with patients and their children who have been subjected to, or at risk of FGM.

I will cover:

1. What is meant by Female Genital Mutilation and the short- and long-term consequences of this practice
2. The prevalence of FGM and the communities where it is more likely to be practised
3. The cultural context for FGM and the underpinning motivations for its use
4. The legislation and guidance regarding FGM including Mandatory Reporting requirements for under and over 18s
5. Identifying factors, signs and symptoms which indicate that children and young people may be at risk of, or have been subjected to FGM.
6. Responding sensitively and positively to children and families where there are concerns about FGM
7. Acting promptly to ensure the safety and welfare of women aged 18 and over, children and young people affected by FGM or at risk of FGM
8. What further relevant resources and information there is about FGM to support professionals and patients
9. A case study

Programme ...

7.30pm - 8.15pm	Session 1
8.15pm - 8.45pm	Break and Promotional Presentation TBC
8.45pm - 9.30pm	Session 2
