Meet the Speakers ...

Dr Anne Connolly MBE MBChB DRCOG DFSRH MRCGP Dip GPSI gynae

After a two year volunteer posting to an under-resourced mission hospital in rural Zimbabwe, Anne returned to General Practice in inner city Bradford in 1990 and is currently working as a GP providing care for asylum seekers, refugees, homeless and sex workers.

She is a GPSI in gynaecology, accredited as a hysteroscopist and FSRH trainer. She has been involved with commissioning since 2006 and retired as CCG clinical board member with remit for maternity, women's, children and young people's healthcare in 2020.

Anne is chair of the PCWHF and RCGP Clinical Champion for Women's Health. She is also co-editor of Women's Health in Primary Care.

Anne was honoured to be awarded an MBE for her work in women's health in the 2021 Queens Birthday Honours List.

Dr Zara Haider MB BS, FRCOG, FFSRH, Diploma in GUM, Pg Cert in Health Management and Leadership

Dr Haider is a Consultant in Sexual and Reproductive Healthcare and Vice President for Workforce Strategy of the Faculty of Sexual and Reproductive Healthcare (FSRH) and Community Sexual and Reproductive Healthcare Training Programme Director for London and Kent, Surrey and Sussex. She is an FSRH Faculty Registered Trainer and Educational Supervisor.

She graduated from Charing Cross and Westminster Medical School in 1994. She trained in Obstetrics and Gynaecology for 10 years, in the South West Thames region and spent 2 years working in Genitourinary Medicine at St. Georges Hospital and at the Haven (Sexual Assault Referral Centre) Camberwell. She completed her Subspecialty Training in Sexual and Reproductive Healthcare at the Margaret Pyke Centre in London including a year as a Darzi Fellow. She was appointed as a Consultant in Sexual and Reproductive Healthcare at Kingston Hospital in 2012.

Your Learning Agenda ...

Women's healthcare has been one of the aspects of care most impacted by the COVID pandemic with gynaecology waiting times being one of the longest for all specialties.

Much of the care needed to support women's health problems can be offered in out-of-hospital settings, with opportunities for prevention and early intervention.

This session will use cases typically presenting to primary care to discuss some of the common issues and how latest evidence can be applied to management.

Learning outcomes

Following this session delegates will be able to describe a clear understanding of the common presentations of gynaecological cancers, with cases selected from:

- ▶ I've got an itch 'down there'
- ▶ I've got a virus but don't know where it's come from.
- ▶ I'm bleeding all the time.
- ▶ I keep feeling bloated.

Clinical outcomes

It is anticipated that following this session delegates will achieve:

An improved understanding of managing women's health concerns using a personalized life course approach.

Appreciate the latest evidence for the management of a number of women's health concerns commonly presenting to us in primary care.

Explore options to improve the pathway of care for women in your local network.

Programme ...

7:30pm - 8:15pm

Session 1

8:15pm - 8:45pm

Sponsored Symposium:
Kyleena (19.5 mg intrauterine delivery system, levonorgestrel)
Does size & dose really matter?

Dr Zara Haider
