WEBINAR

Wednesday 29th June 2022

All Delegates will receive

- Increased knowledge in Microbiology
- A set of Course downloads
- A certificate for your appraisal portfolio

**Course Accredited for
2 hours CPD**

Introducing your speaker

Dr Isabel Baker
Consultant for Infection
North Bristol NHS Trust

Meet the Speaker ...

Dr Isabel Baker

Dr Baker went to medical school in Berlin in Germany, before moving to the UK in 1999. After completing her general internal medicine posts, she trained in Medical Microbiology and Virology in the Severn Deanery in Bristol.

She has worked as a microbiology consultant at Weston General Hospital and Great Western Hospitals in Swindon, before finally moving back to Bristol, currently holding a post as Consultant for Infection at North Bristol NHS Trust.

She provides a clinically orientated laboratory service, with frequent liaison with clinicians in secondary as well as primary care to support decision making in diagnostic as well as therapeutic aspects of management of patients with infections. She has been the Infection Control Doctor in Weston and Swindon for many years, as well as the Clinical Lead for Antibiotic Stewardship, having also held a position as Clinical Director while in Weston.

She has a particular interest in system wide working and facilitation of close collaboration between secondary and primary care for the benefit of patient care, being actively involved in regional STP led work-streams to improve patient pathways.

Education has been a part of her practice for many years, being involved in under- and post-graduate teaching, including sessions for GPs.

Your Learning Agenda ...

Management of urinary tract infections.

- ▶ How to interpret urine results
- ▶ Management algorithms and guidance
- ▶ How resistance patterns have developed and changed through antibiotic prescribing behaviours
- ▶ Treatment options for infections with multi-resistant organisms
- ▶ Risks and benefits of antibiotic prophylaxis
- ▶ Current improvement projects (including national targets)

General Topics around Use of Microbiology Lab

- ▶ The way Microbiology Department present reports to General Practice
- ▶ What organisms are relevant in certain sample types (as in sputum for example)
- ▶ Your questions and Answers

Programme ...

7.30pm - 8.15pm	Session 1
8.15pm - 8.45pm	Break and Promotional Presentation TBC
8.45pm - 9.30pm	Session 2
9.30pm	Webinar Ends
