Meet the Speakers ...

Mr Paul Dromgoole RGN, RNMH, MSc Diabetes, PGCE

Paul has over 20 years' experience in diabetes management in Primary Care and Secondary Care Settings in Brighton, Leicester and York, where he previously worked as a half-time Lecturer Practitioner in Diabetes at the University of York and an External Examiner for the University of Ulster.

He has extensive experience of supporting General Practice in clinical decision making and best practice in diabetes management and his teaching sessions and workshops are consistently highly evaluated for their clinical content, delivery and application to 'real-life' clinical practice.

Paul feels as passionate at being involved in diabetes as 20 years ago, with some excellent therapies, with strong evidence of protecting patients into the future: Importantly, if we can get them 'on board'.

Paul now combines a 2 day a week role as Clinical Nurse Specialist in Diabetes, with freelance Lecturing work throughout the UK.

Outside of work he is a keen Scuba Diver and PADI Dive Instructor and now proud owner of a classic 1947 BSA Motorcycle (any help with kick-starting would be welcome!)

Dr Diana Mansour FRCOG, FFSRH, DIPM

Dr Diana Mansour is a Consultant in Community Gynaecology and Reproductive Healthcare at Newcastle upon Tyne Hospitals NHS Foundation Trust in the UK.

She is an Associate Clinical Lecturer at Newcastle University and was recently the Senior Vice President at the Faculty of Sexual and Reproductive Healthcare of the Royal College of Obstetricians and Gynaecologists. Diana currently sits on the FSRH UKMEC steering group and guideline development group. She is a British Menopause Society recognized specialist, leading recently on the development of the Menopause Guidance for the North of England.

Diana is first author to over 100 peer-reviewed publications and co-wrote 'Contraception Made Easy' with Dr Laura Percy for those working in general practice and family medicine.

Diana's areas of expertise include acceptability of contraceptive methods, non-contraceptive benefits of contraception, development of long-term methods of contraception, medical management of heavy menstrual bleeding and management of the menopause.
